Administration report—Bellary municipality—1922--23—Reviewed.

Government of Madras

LOCAL SELF-GOVERNMENT DEPARTMENT

(Local and Municipal)

G.O. No. 2431, L. & M., 30th October 1923

Administration report—Bellary municipality—1922–23—Reviewed.

Order—No. 2431, L. & M., dated 30th October 1923.

I.—Communications.

About seven furlongs of roads were opened in the year. The total expenditure on maintenance rose from Rs. 4,422 to Rs. 6,879 or Rs. 156 per mile. This was 50·5 per cent of the net toll revenue of Rs. 13,611 against 37·6 per cent in 1921–22. No information has been furnished as to the condition of the roads—an omission which should be supplied. Twenty-six lights were replaced by five high power lights and the lighting charges rose from Rs. 5,531 to Rs. 7,407. The amount appropriated to general revenues from the receipts under 'Communications' was Rs. 3,681.

II.—Education.

2. The number of municipal elementary schools decreased by one. The strength in the municipal schools rose from 600 boys and 185 girls to 744 and 229, respectively; 32·9 per cent of boys and 77·4 per cent of girls of schoolage have yet to be provided for. Attendance showed a sharp decline, being only 65·7 per cent in boys' schools and 73·1 per cent in girls' schools as compared with 83·8 per cent and 84·9 per cent in 1921–22. Only nine schools (eight for boys and one for girls) teach up to or beyond the IV class. The lower classes continue to be congested. Elementary education was made free in the municipality in the course of the year.

3. The municipal secondary school continued to be popular and accounted for 431 students or 57·8 per cent out of a total of 746 students receiving secondary education within the municipality. Of the 45 candidates who appeared for the Secondary School-Leaving Certificate examination, only seven were declared eligible. This does not support the Inspecting Officer's remark that the results were good.

III.—Public Health.

4. The number of patients treated in the municipal dispensary increased from 12,699 to 13,701. The Chairman is requested to report what action has been taken by the Council on the defects pointed out by the District Medical and Sanitary Officer in his inspection notes.

5. The birth-rate rose from 31·7 to 35·6 per mille of the population. The Government observe that the suggestion made by them in the review of the previous year's report that the Council should employ more midwives and organize their work more efficiently has not been acted upon. The three qualified midwives together attended only 121 births (against 178 in 1921–22) or 8·5 per cent of the recorded number of births against 14·9 per cent in 1921–22. The outturn of the municipal midwife was only 55. Five dhais stipended by the municipality are reported to be undergoing training and the Government hope the Council will utilise their services to the best advantage after they are trained. It is disappointing that the Health and Welfare Association has not done any propaganda work during the year.

6. The death-rate rose from 20·4 to 28·8 per mille of the population. Cholera broke out in an epidemic form during the year under review and claimed 76 victims. The number of deaths from fevers also rose from 81 to 169. There were, however, no cases of plague or smallpox. Vaccination has declined, the number of successful cases totalling only 1,697 or 42·6 per mille of the population against 1,945

or 48·8 per mille in 1921–22. Out of 401 cases of re-vaccination only 125 were successful. The municipality will do well to prescribe a minimum of about 200 vaccinations to be performed every month by each of its vaccinators.

7. The Director of Public Health will be asked to advise the Council on the steps to be taken to control the hookworm disease.

8. House conservancy deteriorated. Though the number of houses increased from 9,361 in 1921–22 to 9,532 in 1922–23, the number of houses with latrines and the number conserved declined from 2,586 and 2,280 to 2,479 and 2,021 respectively. Private scavenging brought in a profit of Rs. 1,507 against a loss of Rs. 1,927 in the previous year. The Council should take early steps to extend the service.

9. The Sanitary Engineer has been asked to report whether the cost of the Hagari water-supply scheme (estimated at Rs. 16·5 lakhs) cannot be reduced.

IV.—REMUNERATIVE ENTERPRISES.

10. It is a matter for satisfaction that the income under this head has recovered from the decline in 1921–22 and that the entire surplus receipts have been reserved for the development of non-tax resources. The receipts under the various heads compare as follows with the previous two years :—

	1920–21.	1921–22.	1922–23.
	RS.	RS.	RS.
Markets	1,789	1,336	2,400
Cartstands	1,633	1,049	1,762
Slaughter-houses	4,003	2,525	5,152
Tree-planting	62	120	36
Land development	4,120	4,345	4,666
Total ...	11,607	9,375	14,016

It is hoped that the Council will push on with the schemes for the construction of new markets.

11. It is satisfactory that six out of the twelve town improvement schemes have been completed.

The Director of Town Planning visited the town and a copy of his inspection notes has been forwarded to the Chairman.

The Chairman's attention is invited to the Collector's remarks in paragraph 2 of his endorsement and he is requested to expedite the report called for in paragraph 13 of G.O. No. 1969, L. & M., dated 17th October 1922.

12. Out of seventy-three encroachments thirty were disposed of during the year. The remaining forty-three should be dealt with quickly.

V.—FINANCE.

13. Collection, though an improvement on the previous year's record, is not yet satisfactory ; arrears left uncollected aggregated Rs. 9,800 and Rs. 2,086 under the tax and non-tax items respectively, which work up to 10·2 per cent and 4·3 per cent of the demand.

14. The Government are pleased to note that the Council has made further efforts to improve its financial position. The net general revenue (Rs. 63,113) was 50 per cent higher than that of the previous year (Rs. 42,273). The total expenditure on services also increased from Rs. 40,676 to Rs. 54,541. The net result was a surplus of Rs. 8,572 on the year's working against Rs. 1,597 in 1921–22. A sum of Rs. 1,138 was spent on capital works from general funds and the year closed with a balance of Rs. 7,434.

VI.—GENERAL.

15. Ten elections were held during the year of which seven were contested ; 82·7 per cent of the electorate polled. The Council got through its business in twenty-one meetings of which only one had to be adjourned for want of quorum. Attendance was poor (57·7 per cent of the sanctioned strength against 64·3 per cent in the previous year). Eight committees including a joint committee were at work during the year.

16. The administration was on the whole satisfactory.

(By order of the Government, Ministry of Local Self-Government)

P. L. MOORE,
Secretary to Government.

---

7 It has never been proposed to fix a higher ground rent than Rs. 12/8 an acre on the sites in the old agricultural farm. What is the fixed minimum rate of it seems to me very reasonable. The class of people to build in this extension are quite able to pay it. The real fact is that Bellary is not growing. Nevertheless I believe the time has come for revised extension schemes to provide houses for different class in part of the large vacant site available. If there proves to be any prospect of such a scheme succeeding I already have the power to fix rates below the recognised minimum.

3 Bellary still suffers, as does the District Board, from expenditure incurred in the past to combat repeated epidemics of plague. Just as District Board roads have to be abandoned because funds were spent on plague preventive measures, so, in some degree the Municipality also has suffered.

4 As I said last year, the first necessity is a good water supply the position of water supply would assist a real extension scheme enormously. I still believe that the estimate for the water supply scheme could be reduced, for it cannot be assumed that the cost of materials has come down in the last year or two.

28-8-23

Administration Report for the Year 1922-23. Bellary Municipality.

THE REPORT PROPER.

I. Constitution and Management:

1. There were no changes in the jurisdiction of the Municipality or in the division of wards.

(a) The Council.

During the year under report there were no changes in the sanctioned strength or in the proportion of nominated or elected Councillors.

ii. No Official was nominated Member of the Council. There were four Muhammadans among the elected Members. Of the 7 nominated Members only one represents the backward class, as per G. O. No. 2333 L & M. dated 27-11-1922. There were no Europeans or Anglo-Indians on the Council.

(b) Directing Officers.

M. R. Ry. Rao Bahadur M. Gopalaswami Mudaliar Avl., was the Chairman of the Municipality throughout the year under report. He is a Non-Official and an honorary Officer. Mr. Abdul Hye was elected Vice-Chairman on 4th November 1922 and he assumed charge of his Office on 14-11-22.

iii. There was no election for a Chairman during the year.

vi. There was no Secretary for the Municipality. M. R. Ry. C. Narasimhacharlu was the Manager throughout the year. He was in charge of both Office and out-door work. His work was found to be satisfactory.

3. *Elections.*

i. The educated classes who formed the major portion of the electorate evinced keen interest in elections. The lower classes do not show the same interest which may mainly be attributed to want of education.

ii. Election expenditure amounted to Rs. 192-14-2 during the year.

iii. There were no election disputes during the year.

4. *Meetings.*

i. Meetings were regularly held as required by the Act. There was not less than one meeting in each month. Attendance of Members was fair, the average attendance being 57·65. One meeting was adjourned for want of quorum at the beginning of the year.

ii. There was promptitude in the disposal of the business entered on the agenda.

iii. There was no break in the observance of the rules of procedure.

5, A New Sub-Committee consisting of 3 Members has been formed during the year to watch and improve the vaccination work in the town with powers to form Ward Committees and to report the progress made by them. It had to be formed the old Sub-Committee not having turned out any work worth mentioning. This Committee is evincing much interest in improving vaccination.

The following are the other Sub-Committees formed during the commencement of the year under report:

1 Finance

2 Health

3 Education

4 Lighting

5 Public Works

6 Choultries and Travellers' Bungalow.

7 Vaccination.

There is nothing particular to say about the work turned out by these Committees.

One joint-Committee to settle the toll contribution to be paid by this Municipality to the District Board was formed under Section 26 of the District Municipalities' Act as required by G. O. No. 943 L. & M. dated 30-5-1922. It met on 24-6-1923 and fixed the contribution at 1.

A sum of Rs. 6001 was realised during the year from animal vehicle and cart taxes. Total service receipts were Rs. 20533. Rs. 3681 was the net amount appropriated to revenue during the year.

12

8. The Municipality does not employ an Engineer. There was one Overseer of the Lower Subordinate grade from the College of Engineering, Madras, during the year under report. The pay attached to the post was Rs. 100-5-150. He was in charge of roads and buildings. His work during the year was found to be not satisfactory.

9. *Roads, Bridges, Ferries & Buildings*

(a) *Roads.*

1. The roads were divided into three classes viz., 1st, 2nd and 3rd class roads. The length of the Trunk Road for the maintenance of which the Government have taken the responsibility is 1 Mile 4 Furlongs and 410 ft. and the expenditure thereon during the year was Rs. 1430. The names of the Trunk Roads are as shown below:—

1 The Madras-Bombay Trunk Road.
2 The Kurnool-Bangalore Road.

The District Roads are

1 The Rayadrug Road.
2 The Siruguppa Road.
3 The Kalyandrug Road.

2. Broken metal of granite burnt stone is used in this Municipality and it is quite suitable for the purpose. The Katiguddam quarry is by the side of the Madras-Bombay Trunk Road to the North of the town and in close proximity to it. The out put of this quarry is not sufficient to meet the requirements of the Municipality. There is one quarry in Cowl Bazaar and two in Cantonment limits. The average lead from the these quarries is about 1½ miles. No metal is brought by rail in this Municipality.

3. The busy roads are the Car Street and the Bangalore Road which are sufficiently wide being 30 ft. in width. There are no building lines maintained by this Municipality to have efficient control over encroachments, the only Municipal limit being the side drain. The Shop-keepers in the Bangalore Road on both sides have been induced by me to get the road in front of their shops slabbed to a width of 9 feet at their own cost. This gives a very neat appearance to the road and will act as a prevention against encroachments The above pavements will be a boon to pedestrians and will mean less expenditure to the Municipality in repairing the road. I am glad to testify to the willing Co-operation of the Councillors as well as of the townsmen in this matter.

The Police control the traffic on busy roads. No Bye-laws were formed for control of traffic. Most of the main roads are in a fair condition.

4. The gross and net receipts from tolls for the year were Rs. 21662 and Rs. 13611 respectively. The expenditure on roads was 50·5 per-cent of the net receipts from tolls during the year while the expenditure on roads during the previous year was 37·7 per-cent of the net receipts from tolls. The Municipality was paying toll contribution to the District Board and Cantonment Committee at 1/5 and 1/9 respectively. On the receipt of a representation from the Cantonment Committee the Council had to raise the contribution payable to that body from 1/9 to 1/6. The percentage of expenditure on roads to the allotment provided in the revised estimate of the Budget was 84·3.

(b) *Bridges, Causeways and Culverts.*

No bridges or causeways were constructed during the year. One new culvert on the Kuppagal Road and one on Taluk Office Road were constructed during the year under report.

(c) *Ferries.*

There are no ferries in the Municipality.

(d) *Departmental Buildings*

No Departmental Buildings of importance were constructed during the year.

10. Rest-houses, Choultries and Watersheds:

No new rest-houses were constructed nor were any abandoned during the year.

There is a rest-house in the Municipality which can accommodate two families at a time.

ii. Gross cost of maintenance was Rs. 367. Net cost of maintenance was Rs. 108. No Capital expenditure was incurred on the building.

(a) *Choultries and Watersheds.*

i. No new choultries were constructed nor were any abandoned during the year.

There is one Choultry called the Prince of Wales Choultry. It is a big spacious building consisting of 9 inner rooms and 8 outer rooms. The inner and outer rooms are intended for Caste Hindus. The outside verandahs are generally used by low caste people.

i. There is another Choultry called Tulasamma Choultry. (Endowed Institution). It is a small room intended only for caste Hindus.

ii. Gross cost of maintenance was Rs. 132 and the net cost of maintenance was Rs. 128. There are no Endowments for Choultries in this Municipality. No free feeding is carried on in the Choultries of this Municipality.

11. Tools and Plant and Stores.

A sum of Rs. 42 was incurred on tools and plant during the year under report.

12. Lighting.

There was a fall of 21 lights during the year under report when compared with the previous year, the lights used during 1922-23 and 1921-22 being 471 and 492 respectively The decrease in the number of lights during the year was due to five high power kitson lights having been put up at important centres of the town.

III—EDUCATION.

14. Adequacy of Educational facilities.

1. According to the Sensus figures of 1921 there were 2141 Boys and 2143 Girls of School going age in this Municipality. 705 Boys and 1659 Girls are yet to be provided with Education.

There were 41 Schools for Boys and 10 Schools for Girls at the beginning and 40 Schools for Boys and 11 Schools for Girls at the close of the year under report. The reason for the decrease in the number of Schools was due to the Satyanarayanapet Girls School which was held in a rented building having been transferred to the Municipal School Building at Satyanarayanapet where Boys School was held, there having been no need for a Boys School there. The average strength in all Schools was 1436 for Boys and 484 for Girls.

iii. No one attended the Schools from outside the Municipal limits.

15 Strength and Efficiency.

i. There were 23 Municipal Schools at the beginning and 22 Schools at the close of the year. The average strength of all Elementary Boys Schools was 744 while that of Girls Schools was 229 during the year. The percentage of the above to the total average strength of all Schools in the Municipality was 51·8 per-cent for Boys and 47·3 per-cent for Girls.

ii. The percentage of attendance to average strength in case of Boys and Girls was 65·7 per-cent and 73·1 per-cent respectively. There were two Schools teaching up to 5th class 6 up to 4th class and 10 up to other classes.

iii. The per-centage of the total number of Pupils who attended the 1st, 2nd, 3rd, 4th and 5th classes to the total strength during the year were 47·0, 28·7, 15·2, 8·1 and 1·0, respectively for Boys while for Girls the per-centages were 80·4, 10·5, 7.4 and 1·7 for the 1st, 2nd, 3rd and 4th classes respectively. It is found that there was some improvement in classes 2, 3, and 4 for Boys and in class 1 for Girls and there was some deterioration in respect of other classes for Boys and Girls. There were 8 Schools for Mahammadans (6 for Boys and 2 for Girls) and 3 for Backward classes. Backward classes were freely admitted in Elementary Schools intended for caste Hindus.

16. Staff.

Out of 41 Teachers 27 were trained while the remaining 14 were untrained men. A trained Teacher is paid Rs. 16 a month and he is admitted to the benefits of the Provident fund.

17. Accommodation and Equipment.

There were 6 School buildings owned by the Council. The Cowl Bazaar Model School which was constructed out of Government grant was completed during the year. and thus the total number of School buildings come up to 6 as against 5 in the previous year. Ten Schools were held in rented buildings. An expenditure of Rs. 263 was incurred on the maintenance of Municipal School buildings. There is sufficient accommodation in all the Municipal Elementary Schools except in Cowl Bazaar Model School where it is proposed to provide additional accommodation. All these buildings are well ventilated but no play-grounds are attached to them. All Schools are fairly well equipped.

18. Elementary Education.

i. 38·7 per-cent of the total expenditure on Elementary Education was met from Government subsidies while 61·3 per-cent from Municipal resources. Education tax was not levied in this Municipality though in the year under report the Elementary Education for Boys and Girls was made free.

ii. The cost per Pupil was Rs ~~13-0-7~~ 11-8-2 as against Rs. ~~17-0-2~~ 11-14-0 (Compare No 27716 The decrease during the year was due to a small sum having been spent on construction of School building while in the previous year a sum of Rs. 4420 was spent under that hea-

iii. With the exception of consultation with the Council in matters of Elementary Education and the submission of the Elementary Education Budget to them there have been no other relations with the Council. Two Members of the Municipal Council are on the District Education Council, Rao Bahadur M. Gopalaswami Mudaliar Avl, one of the Members of the Education Council chosen by the Municipality having become an Ex-Officio Member of the Council by his appointment as the President of the District Board; the Municipal Council has chosen M. R. Ry. C. Balaji Rao, a Municipal Councillor, as a Member of the Council in his place.

II. SECONDARY EDUCATION.

19. Adequacy and Strength.

i. 1. Municipal High School.
2. Wardlaw High School.
3. St. John's Middle School.

ii. Students were taught up to VI Form in the Municipal High School and the Wardlaw High School while in the St. John's School they were taught up to III Form. The strength of the Secondary Department of the Municipal High School was 431 against the total strength of 746 of all Schools.

20. Efficiency.

i. The average attendance was 87 per-cent of the average strength.

ii. The strength of each Form in the Municipal Secondary School is shown below:—

Form I	98	Form IV	73
,, II	85	,, V	55
,, III	63	,, VI	57

Total—431.

The strength of the Primary Department in the Municipal School was 112.

iii. 81 Students attended the School from outside the Municipal limits.

iv. There was only one Girl in the Secondary Department. 44 Children of the backward classes attended the School during the year under report.

v. 7 Students were declared eligible out of 45 that appeared for the S. S. L. C. Examination of 1923.

The following are the Inspecting Officer's remarks:—

"Results good. Commercial subjects are being well taught. Discipline remains good. The School 'Cubs' and 'Scouts' are doing well. I am pleased with the general keenness of the staff and with the attention paid to the last year's suggestions".

21. Staff.

The number, qualification, etc., furnished in the form of a statement is hereto appended.

i. The School is located in a private residential building absolutely unfit for a School house. It is an old and dangerous structure standing very badly in need of repair. Accommodation is highly inadequate, the building itself providing accommodation for only 4 classes, the Physics and Chemistry Laboratories and the Library and the School Office. The rest of the School is held in seven thatched sheds. The grant of Rs. 50,000 made for the construction of a new building by Government in 1918 was taken back by them on the understanding that they would themselves construct a building and hand it over to the Municipality. But the Government in their order No. 1480 C. dated 23-2-1923 have asked the Superintending Engineer, IV Circle, Madras, to prepare a cheaper design, the

cost being reduced to Rs. 50,000 in lieu of the plans and estimates already sanctioned by Government. The preparation of the estimate may be taken on hand immediately and the work started with as much accommodation as is possible to be built for the said amount, making temporary provision for the rest of the classes so that the School may be shifted there as early as possible.

There is a play ground in the School compound itself though a small one. In the close proximity to the School there is another public play ground the use of which is mostly monopolised by the Boys of the School. The old Military drill has fallen into disuse and the Modern Noehren's drill has taken its place. Pupils take to this drill with pleasure and it is becoming more popular. The Drill Teacher of the School was sent to Nandyal during the year to undergo training in the Modern Noehren's drill.

iii. There is no hostel attached to the School There are five private Hostels in the town as shown below:—

1 G. Krishtappa's Hostel
2 M Nagappa's Hostel
3 Raja Subba Batlu's Hostel
4 Lingayat Hostel
5 Idiga Hostel

In the last Hostel some of the Students of the School only lodge, there being no boarding arrangements. In the first three Hostels poor Students of Vaisya and Brahmin communities are freely Fed and lodged. But these Hostels are in the town amidst unclean surroundings and are entirely communal in character. The fourth is a Hostel for Lingayats where poor Boys of that community are Fed free. This is situated outside the town in a healthy locality. Hence a well conducted Hostel outside the town is a desideratum, for the School. If the last named Hostel which is situated very close to the Municipal High School outside the town in a healthy locality and which possesses a vast compound with a fine well is taken over by the Municipality and is run as a Hostel for the Boys it will be a boon to the town the district of Bellary. The Proprietors of the building are willing to place it at the disposal of the Government.

23. Net cost of the School was Rs. 9933. Cost per Pupil was Rs. 44.

24. Special Schools, Public Libraries, etc.

There were neither special Schools nor Public Libraries in the Municipality during the year.

IV. PUBLIC HEALTH.

1. MEDICAL RELIEF

26. Adequacy.

i. There were three Medical Institutions during the year under report, viz ,

1 The Government Head-quarter's Hospital
2 The Railway Dispensary
3 The Municipal Dispensary at Cowl Bazaar

2. Staff in the Cowl Bazaar Dispensary consisted of the following:—

1	Sub-Assistant Surgeon	1
2	Mid-wife	1
3	Compounder	1
4	Male Ward Attendant	1
5	Female Ward Attendant	1
6	Watchman	1
7	Peon	1

iii. No special arrangements were made for the treatment of women and children in the Municipal Dispensary at Cowl Bazaar as there is a woman and children's Hospital attached to the Headquarter Hospital where women and children are treated with a Lady Sub-Assistant Surgeon presiding over it.

27. Patients.

The cost per patient in Cowl Bazaar Dispensary was Rs. 0-5-10.

28. Accommodation and Equipment.

The Municipal Dispensary at Cowl Bazaar was located till 13-2-23 in a building belonging to the Military authority which was made over to the Municipality several years back. It was shifted to a rented building on 14-2-23 in the centre of Cowl Bazaar the people of Cowl Bazaar having complained that the Dispensary in the Military building was in a remote corner far away from the town. Necessary repairs were done to the new building by the owner to make it suitable for a Dispensary as suggested by the District Medical and Sanitary Officer. The Dispensary is not in need of emergency wards in as much as Head-quarter's Hospital have them.

ii. The equipment and the Subordinate staff are sufficient.

iii. A copy of the District Medical and Sanitary Officer's inspection remarks is hereto appended.

iv. No capital expenditure was incurred during the year.

ii. Preventive Medicines

29. Organization and staff.

There is no Health Officer to this Municipality. There is a chief Sanitary Inspector who is a qualified hand. He is assited by three Sanitary Inspectors who are all unqualified men. The Government have sanctioned the retention of these men till the services of qualified men are available. It is proposed to send one of these Assistant Sanitary Inspectors for training in July next. The Surgeon General has sanctioned the exemption from the prescribed Examination rules for admission into the training class in the case of this Sanitary Inspector.

An expenditure of Rs. 2830 was incurred towards the pay and allowances of Sanitary Inspectors. This Municipality has no relation with the District Board or any other Local body in connection with sanitation. The Health and Welfare Association has been organised in this Municipality which consists of 5 Members. The Association have also been empowered to undertake Public Health work in Schools, Markets, etc., In order to spread knowledge regarding Epidemic and other health matters. No propoganda work was done during the year.

30. Birth Rate and Maternity Relief.

i. There were 3 Birth and Death Registrars working in this Municipality. The birth rate for the year under report was 35·64 per mille as compared with 31 70 per mille in the previous year. During the year 8 prosecution were Instituted for failure to get births registered. The increase in the birth rate is mainly due to the town having been free from plague.

iii. There were 3 qualified Midwifes in the Municipality. Of these one was attached to the Cowl Bazaar Dispensary and the remaining two were in the Headquarter Hospital. 121 cases were attended by the Midwives as against 178 in the previous year. The Midwife attached to the Municipal Dispensary attended 55 cases as against 75 cases in the previous year. The decrease is due to the Midwife having been on Medical leave for 4 months.

iii. The percentage of recorded births attended by qualified Midwives was 8·5.

iv. A class has been opened by the District Medical and Sanitary Officer for imparting training to the Dhais in order to improve the quality of their work during the current year. The Council have sanctioned the payment of an allowance at the rate of Rs. 10 to each of these women while under training. Five Dhais are now undergoing training.

v. The Association of Health and Child Welfare which was organized for the prevention of infant mortality three years back did not take any active steps during the year.

31. Death Rate Epidemic and Endemic Diseases.

i. The total number of deaths during the year was more than that of the previous year and the average of quinquennium. The increase is more noticeable under the following head:—

Heads	1922-23	1921-22.	Quinquennium.
Cholera	76		24
Fevers	169	81	157
Respiratory diseases	176	134	182
All other diseases	661	463	651

The increase was chiefly due to the prevalence of Cholera, Influenza and Dengue fever during the year.

ii. The rate per mille of deaths from (i) fever was 4·2 as against the Presidency average of 7·7, (2) Diarrhœa and Dysentery was 1·7 as against the Presidency average of 1·3 and (3) Respiratory diseases was 4 4 as against the Presi dency average of 1·1. The death rate from respiratory diseases was rather high. The cause for this was probably due to the prevalence of Influenza in a virulent form in the town and suburbs. Cholera broke out during the year and it carried away 76 persons. A preventive staff was organized which was placed under a Sub Assistant Surgeon whose services were placed at the disposal this Municipality by the District Medical and Sanitary Officer. The Sub-Assistant Surgeon did good work as there were several recoveries from the disease.

iv. The town was free from Small-pox.

Vaccination is compulsory in this Municipality. The Municipality employs two Vaccinator and a Vaccinatrix. The number of successful (Primary and secondary) cases vaccinated per mille was 39·5. The number of successful revaccination cases during the year was 125.

A new Sub-Committee consisting of 3 Members has been formed during the year for

the Improvement of vaccination work the Members of the old Sub-Committee not having reported as the work turned out by them though reminded repeatedly.

(v). There was no Plague during the year.

(vi). The Town was free from Malaria during the year.

(vii). There were no cases of hook-worm during the year.

(viii). The hookworm expert who was sent out by Government to investigate into the disease delivered illustrated lectures about hook-worm in the Wardlaw High School here for the benefit of the School children. He had also distributed tins for the collection of faeces of the Students in order to ascertain whether any of them were suffering from the disease. But before he could finish the work he fell ill and returned to Madras. The Municipality is in dark about the existence or otherwise of the disease and so no further action could be taken in the matter. A copy of the Sub-Committees' report containing measures to be adopted in connection with the disease has been submitted to the Government in this Office letter No. 269 dated 8-11-22.

32. *Sanitation.*

(a) Conservancy.

(i). There were 21 public Latrines The filth collected from the Latrines is taken in baskets and night soil hand carts to sub depots where it is deposited in the Bombay pattern night-soil barrels mounted on double bullock carts. These carts are taken to the trenching ground where the night-soil is trenched.

(b) Rubbish is carted from dust bins in type designed rubbish carts to the depots and it is deposited there. The rubbish deposts are leased out annually to the highest bidders.

(c) Sullage is removed in Bombay pattern barrels and emptied over the rubbish in the depot where it disappears partly by evaporation and partly by absorption. The total amount of conservancy receipts was Rs. 2090 during the year. The conservancy plant being insufficient to meet the requirements additional rubbish and night-soil carts had to be purchased at a cost of Rs. 2945 during the year.

No amount was set apart during the year towards the conservancy depreciation fund. No Bye-laws were framed with regard to conservancy during the year.

(ii). *Private Conservancy.*

The private scavenging system worked with a profit of Rs. 1507 during the year. A sum of Rs. 572-7-0 has since been realised up to date out of the balance of the year under report. 74 per-cent of the houses are without latrines and only 21·2 per-cent of them are served by the Municipal Agency.

(b) *Food adulteration.*

1. Hotels, Refreshment Stalls and Sweetmeat shops were all licensed during the year. One of the conditions under which these licenses are granted is that the cups and saucers used in these places should be washed with permanganate of potash.

2. The Sanitary Inspectors are responsible to see that the conditions of the licenses are strictly enforced.

3. No Bye-laws were framed in this connection.

(c) *Dangerous and offensive trades.*

The following dangerous and offensive trades were carried on far off from dwelling houses. (1) Tannery (2) Lime kiln (3) Storing Hides (4) Distillery.

(ii). A list of dangerous and offensive trades licensed in this Municipality during the year under report is hereto appended. Conditions have not been fixed for any of these licenses.

(iii). No Bye-laws have been framed for dangerous and offensive trades. The model Bye-laws received with G. O. No. 402 L & M dated 10-2-23 have been referred by the Council to a Sub-Committee for their opinion for adoption.

(iv). These trades which are carried on in the Municipality are often inspected by the Sanitary Inspectors and thus these are kept in their proper sanitary condition.

(d) Fairs and Festivals.

No fairs and festivals of any importance are held in this Municipality.

33 & 34. Water Supply and Drainage.

There is no water and drainage system for this Municipality. The chief source of Water Supply for the Town of Brucepet is the Main Warring tank close to the Town. It receives its supply from the hill which is connected with the tank by a supply channel. The supply channel is periodically cleaned with the help of the conservance staff. There are four fresh-water wells in close proximity to the Nellacheru tank. The Water Supply is quite inadequate especially when the rains fail. Hence it is quite necessary that the Hagari Water Supply scheme which has been sanctioned by the Government will have to be started as early as possible The only source of Water-Supply for Cowl Bazaar is the Fort Ditch which is under the control of the Military Authorities. Water is pumped from the Ditch to a reservoir close to it from where the people take water. The Municipality pays a contribution of Rs. 350 for the maintenance of the Fort Ditch.

III. PUBLIC HEALTH MISCELLANEOUS.

35. Public Health and safety. (Mis.)

The Municipality does not maintain a Veterinary Hospital. The one in this Municipality is maintained by the S. P. C. A. The Municipality stopped the payment of contribution to this body during the year under report which it was hitherto paying as per G. O. No. 493 F dated 11-5-21.

(ii). There was a Fire-engine in this Municipality. To look after it the Municipality employed a Lascar.

(iii). The Medical Inspection of the Municipal Secondary School was not conducted during the year under report, the Government having ordered that they cannot pay hereafter their share of contribution for the purpose. The fees payable by a Student in the case of a re-examination is only Rs. 0-2-0. As the fee is very small and not attractive to a Medical man the Council have resolved to bear out of their funds an equal sum viz. Rs. 0-2-0. for every case of re-examination by a Medical man.

22

1. There was one daily and weekly Market during the year under report. The daily Market was held in the open space at the Western end of Durgamma Temple Street by the side of the Bangalore Road. The weekly Market was held in an open space South of the Car Street enclosed by a compound wall. It contains a single type design stall in the middle of it. A large portion of the Cowl Bazaar Market which was in a ruined condition was sold in auction and it fetched a sum of Rs. 2785 to the Municipality. The sale of these plots was confirmed by the Government in G. O. No. 2425 L & M dated 6-12-22. It is proposed to utilize the amount realised in acquiring a site for the construction of a new Meat Market for Brucepet for which provision has been made in the Budget

(ii). The total receipts during the year was Rs. 2385 and no expenditure was incurred on the maintenance of Markets.

(iii). A good Market is a desideratum for this Municipality. It is under contemplation to construct a new Market by raising a loan from Government

(iv). There was one private Market in Cowl Bazaar during the year. The license fee derived therefrom was Rs. 75. The estimated receipts are reported to be about Rs. 50 therefrom. No conditions were fixed for the license.

(b) *Cart Stands.*

(i). There were 6 public Cart stands during the year.

(ii). A sum of Rs. 1726 was realised during the year from the Cart stands and it was not appropriated to revenue.

(iii). There are no suitable sites for the creation of new Cart stands.

(iv). There were two private Cart stands and a sum of Rs. 36 was realised therefrom as license fees. Conditions were not fixed for the licenses.

(c) *Slaughter Houses.*

(i). There were 3 public Slaughter houses during the year and the net revenue derived therefrom being Rs. 4347.

(ii). There were no private Slaughter houses.

39. No trees were planted during the year as no nursery was maintained by the Municipality.

7

40. LAND DEVELOPMENT.

(a) Town Planning Act.

(i). One of the Members of the Town Planning Committee formed in 1920-21 having vacated his seat owing to efflux of time a new Sub-Committee consisting of 4 Members has been formed by the Council in its meeting held on 29-1-23. The Town was visited by the Town Planning Officer in the month of January 1923 but his inspection remarks have not been received as yet.

(ii). The Town has not yet been surveyed. The First and Fourth Wards are the densely populated areas in the Municipality. No steps have yet been taken to carry out Civic survey which can only be undertaken on the Improvement of financial position of the Municipality.

(iii). The Agricultural Farm is the only Town extension scheme with the Municipality at present. It has been divided into plots and several of them sold. With the exception of a few houses that have cropped up here and there almost all the plots have not been built upon. The high rate of ground-rent has been shown in the previous report as the reason for this. At the request of the Council 2 Councillors along with the Chairman waited upon the Collector in deputation to represent to Government to reduce the rate of ground rent of Rs. 12/8 per acre on the Agricultural Farm plots. As the result of the deputation is not yet known the report called for by Government in para 13 of G. O. No 1969 Lr & M dated 9-10-22 could not be submitted. The Collector has been reminded in the matter. The Chairman made strong representation to the Registrar of Co operative Societies to start a Co-operative building Society. On this representation the Co-operative Society has come forward to give loans to owners of plots for construction of buildings on certain conditions. With this help from the Co-operative building Society which is proposed to be formed shortly it is hoped that the plot owners will start constructing buildings without further loss of time.

IV. LIST OF TOWN IMPROVEMENT SCHEMES.

(a) Cumming and Graham Roads.

The two works have been completed but the final bill of the latter work has not yet been paid.

(ii). *Durgamma Temple Street.*

This road has been completed with the exception of a small portion of drain towards the Eastern end of the road. A house which was an obstacle for the completion of this portion of the drain was acquired and compensation paid within the year. The construction of the drain has been completed during the current year

(iii). The plans and estimates of the Samachari Lane are ready but the work could not be taken on hand for want of funds.

(iv). *Reddi Street.*

The road has been completed but a portion of the drain towards the Northern end of the Street could not be laid out owing to the obstruction of 4 houses. These houses have been acquired and compensation paid within the year. The drain in this portion has been completed during the current year.

(v). *Clearance of Block South of Car Street*

This work has been completed.

(vi). *Clearance of Lalakaman Block.*

The work of effecting other improvements to the block as per estimate sanctioned by the Sanitary Engineer was completed during the year.

(vii) *Tank Bund Block.*

The plans and estimates for the work have been sanctioned by the Sanitary Engineer but the work could not be taken on hand for want of funds.

(viii). *Ram Singh Lane.*

The survey of the road has been completed and the plans are under preparation.

(ix). *Formation of road between Bangalore Road and Patha Kandukam.*

The plans and estimates for the work have been approved by the Sanitary Engineer but the work could not be taken on hand owing to want of funds.

(x). *Karedappa Street.*

This road has not yet been surveyed.

(xi). Clearing up of houses near Railway line has been completed.

(xii). Lay out of the sites acquired on the 2 sides of the Hirehalukkadam road, The sites are more useful to Carpenters and wheel wrights than for house building purposes. vide G. O. No. 1478. M. Mis. & dated 24-9-1920.

Surplus sites on the road margins and plots in the Agricultural Farm were auctioned free hold. Four sites which were let out on rent have been purchased by the Occupiers.

(*b*). *Other Land exploitation.*

(i). Road side stalls are not licensed in this Municipality except on the Car festival days. Temporary and unobjectionable encroachments were licensed at 6pies per square. yard. per diem. Building materials were licensed at 4 Annas per square. yard. per month.

(ii). Number of encroachments pending at the beginning of the year.

At the beginning of the year	50
At the close of the year	43
Received during the year	23
Disposed off during the year	30

41. Other Remunerative enterprises if any.

There were no pounds under the control of the Municipality.

VI. GENERAL REVENUE.

42. Revenue account.

There was a general revision of House tax of all the Wards of the Municipality during the year under report. Property tax was levied at 9.4/9 % of the rental value in respect of houses and Agricultural lands while the tax on vacant lands was fixed at one anna per 80 sq. yds. Profession tax was levied at 70 % of the rates noted in Schedule VI of the Act. Company's tax was levied at the maximum rate given in Schedule IV of the Act. The tax on Vehicles, Animals and Carts was levied at the rates noted in the margin.

The cost of collection was Rs. 3659 and it works up to 5·6 % of gross collections. The year opened with a nil balance (as per audit statement for 21-22) under revenue account A sum of Rs. 65505 was realised during the year from taxation. No amount was appropriated from remunerative enterprises account to revenue account. A sum of Rs. 5567 was utilized from this account to services. Rs. 24 being the grant for temporary allowance for Elementary School Teachers which was merged in the general balance was refunded to Government from this account and the sum of Rs. 3659 being the cost of collection establishment was debited to this account. The year closed with a balance of Rs. 7434.

43. Incidence.

The incidence of property tax was Rs. 5-2-2 as against Rs. 3-13-1 of the last year while that of the Profession tax was Rs 6-3-3 as against Rs. 5-12-7 of the previous year.

44. Demand, Collection and Balance.

28

(ii). The gross opening and closing balance were Rs. 67849 and Rs. 58381 respectively.

Closing balance:—	Rs.
Elementary Education Fund	Nil
Water & Drainage Tax.	16640
Remunerative enterprise account	24702
Government grant	809
Loans	Nil

The net balance under Revenue account was Rs. 7434.

(iii). The year practically commenced with a deficit balance and the Government in their G. O. No. 1850 L & M dated 6-10-22 permitted the Council to appropriate the Water and Draingae tax fund to the end of December 1922 to meet its demands. The deficit balance was however wiped off within the time fixed by Government.

46. Ordinary Resources.

The total expenditure was Rs. 126490. This was met mostly from service receipts and revenue and partly from Government grants. No amount was appropriated from remunerative enterprise accounts for services.

Name of services.	Amount expended from Government Grants.	Contribution & Endowments.	Percentage to Total Expenditure on these services.

	Amount met from loans	Percentage to Capital Expenditure.
	Rs	
Capital Receipts	4227	72 87
Government grant	436	7'51
Municipal Funds	1138	19·62

48. Debt.

There was no debt for the Municipality during the year.

49. Investments.

No amount was invested out of Municipal Funds. A sum of Rs. 3590 was invested out of Provident fund balance.

50. No amount was set apart as depreciation during the year for want of funds.

51. Audit.

The Examiner has remarked in the audit report on the accounts of this Municipality for the year as fairly satisfactory. The audit on the accounts for the first half year of the year under Report was completed by M. R. Ry. R. Gopala Aiyer, Assistant Inspector of Local Fund Accounts in the month of February 1923. The above Auditor commenced the second half year's audit on the 25th ultimo and completed it on 22 8-1923. No amount was surcharged nor were there any defalcations.

52. There were 12 bills amounting to Rs. 767 pending payment at the close of the year.

63. General Remarks.

Owing to the prevalence of Plague in this Municipality for about 17 years from 1901 much of the Municipal Revenue had to be diverted year after year to adopt the preventive measures then in force. No attempt was made to make up the deficit. From 1918 the Municipality was working in a deficit balance till very recently. Thus from the year 1901 till now the Municipality was not able to lay back anything for the improvement of the buildings yielding revenue to the Municipality. After my taking over charge of the Municipality in December 1921 I strove my utmost and have placed the financial position of the Municipality on a better footing with the result that the year closed with a balance of Rs. 7434, under Revenue account after paying almost all the bills received during the course of the year without touching a single pie out of the receipts from remunerative enterprises. As the Municipality is in a better position now to apply for a loan, the Government were requested in this Office letter No. 142 dated 22-5-1923 to grant a loan of Rs. 60,000 repayable in 30 years at the rate of Rs. 2000 per year for the Improvement of the buildings above referred to. In reply the Government have drawn the attention of the Chairman to G. O. No. 446 L & M 19-2-23 in the matter. It is requested that the Government will be pleased at least to grant the loan applied for for 1924-25 for which an application will be submitted in September next.

The short delay in submitting Administration Reports was due to the fact that the audit began on 25-5-23 and was completed on 22-6-23. The Council had to wait to get correct figures for the preparation of this report.

Situated as this Municipality is in a famine zone, affected as it has been by a series of epidemics, ignorant and illiterate as the masses are it is hoped that the Government would be indulgent towards this Town and help it in all possible directions.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd) M. GOPALASWAMI MUDALIAR,

Chairman.

Municipal Councillors' Office,
Bellary, 2-7-23.

Aryan Press, Bellary.—100-8-23.

30

Copy of the Inspection Report by the District Medical & Sanitary Officer, Bellary:-

Inspected the Dispensary. The routine work is being carried on regularly. The staff was present though I visited without notice at 8 A. M.

Midwife did not seem to be up to mark, her equipment box was empty, essential articles such as a nail brush, soap, asceptic ligature for cord etc. were not in it had bangles on her wrist which are a menace to the parturient woman. It is a matter of great doubt whether she conducts cases safely without giving sepsis. Her work requires supervision.

Instruments do not seem to receive regular and careful attention. Some of them being actually rusty and covered with Verdigris. In the old tooth instrument case three forceps are missing and not accounted for.

There does not seem to be any care and accuracy nor any system in the issue of drugs. When the stock was checked some drugs were actually less and others more 1 lb., & 6 ounces of Pot: iodide and 4 oz of tinct. opium were less. This is apparently due to carelessness and perhaps due to want of supervision in issuing Compounder being trusted to do it.

The Books and Registers were not up to date. Daily work in this respect is not being done even the Stock Book of drugs is in arrears

The Compounder's work is not at all satisfactory. Scales and weights dirty and filthy, arrangements of drugs unsatisfactory, labels dirty and missing Poison Almirah contains things which should not find a place there. There is no cleanliness and neatness in his work.

On the whole it was disappointment. The Sub-Assistant Surgeon did not seem to have exercised any control over the contingent expenditure which exceeded the permanent advance It is gratifying to note that his bills after having talked to by me have come down to about Rs. 5 monthly. The Medical Officer is a young man with about 2 years experience he should work with zeal and interest and exercise strict supervision and control over his staff.

(Sd). P. F. MATHIAS,
District Medical & Sanitary Officer.

INSTRUC

(1) Very great care should be taken in preparing this summary of the comparative annual account.
(2) Mistakes are apt to occur especially in regard to the accounting of appropriations each of which is bound to appear as, or to be included in, are given for exhibiting appropriations in this summary :—
(i) Where in any section of the Service Account, there is an appropriation to Revenue, i.e., a figure entered against "Deduct appropriation to in column 4 against the Revenue Account.
(ii) In cases where there is an appropriation from the ordinary to the capital section of the Elementary Education or Water-supply and tion from ordinary to capital in the Remunerative Enterprises Account, it should be shown as a minus entry in column 5 and as a plus entry in
(iii) Appropriations from Remunerative Enterprises to Revenue should be shown as a minus entry in column 6 against the Remunerative
(iv) Appropriations from Revenue to Service ordinary should be shown as plus entries in column 6 against the Service account concerned and
(v) Appropriations from Revenue to Service capital should be shown as plus entries in column 16 against the Service account concerned and
(vi) If rarely there is any case of appropriation from Remunerative Enterprise Capital to Revenue, it should be shown as a minus entry in
(vii) Care should be taken—especially in the case of the Endowments and contributions, Government grants and Water-supply and Drainage
(3) The sum of the figures in columns 9 and 20 should tally with the opening treasury cash balance for the year.
(4) The figure in column 28 against grand total should tally with the actual closing balance in the treasury.
(5) The figures in columns 2 and 12 represent actual cash payments and those in columns 3 and 13 actual cash receipts. It should be noted nature, receipts from Remunerative Enterprises Endowments and contributions, Government grants and Deposits and advances.
(6) The grand total of the figures in column 10 should be the same as the sum of the figures against grand total in columns 3 to 9; so should

Bellary Municipality.

ADMINISTRATION REPORT

PART II.—STATISTICAL ENCLOSURES.

GENERAL INSTRUCTIONS.

1. Financial figures should be rounded off to the nearest rupee.

2. In calculating the population of rural areas for local fund purposes, the population of Municipal areas should be excluded.

3. Annual figures, where they have to be given for more than one year, should be entered in descending order, the latest year first and the earliest year last.

4. Figures for the years other than that under report should be written in red ink.

5. Financial summaries for local boards should be posted in printed forms only, additional forms being obtained from the Superintendent, Government Press.

6. Where the printed form is found insufficient for other than financial summaries, additional sheets neatly ruled should be attached.

90

I-A.—Personnel.

Year.	Population (1921-census).	Number of wards.	Sanctioned strength.		Actual strength on 31st March.

C. No. 20767 from the C. M. C., Bellary
No 713 dated 30-8-1923.

Memo. 20767-1 L & M. dated 25/10/23

The following points are noticed in the Administration report of the Bellary Municipality for 1922-'23 & the Statistical Enclosures submitted therewith.

p. 14 C.f. (i) In para 10(ii) of the report, the Cost of Elementary Education per pupil should have been entered as Rs ~~13-0-7~~ 11-8-2 viz 1922-23 & Rs ~~17-3-2~~ 11-14-0 viz 1921-22, viz instead of Rs ~~11-8-2~~ 13.0.7 & Rs 17-3-2 respectively. The former figures are obtained by dividing the ~~expenditure~~ total Expenditure on elementary Education viz Col. 2 of Encl. III-I by the total strength of Ml. schools (boys & girls put together), Viz. Col. 5 of Encl. III-C + Col. 5 of Encl. III-D.

p. 23 C.f. (ii) In para 38 of the report—

(a) the gross receipts from Ml. Markets in 1922-23 is given as Rs 2385 whereas in ~~Col 8 of Encl. I-A~~ the Comparative Annual Acct. (p. 31) it is shown as Rs ~~2326~~ 2460;

(b) the receipt from Cattlesheds

in 1922 is shown as Rs ~~1000~~ 1081, whereas in Col. 1 of the Comp. annual Acct. for 1922-23 (p. 31) it is shown as Rs ~~1025~~ 1049;

(c) the receipts from tree-planting in 1921 is shown as Rs ~~120~~ 100, whereas in Col. 1 of Comp. annual Acct. for 1922-23 (p. 35) it is shown as Rs ~~100~~ 120;

(d) the receipts from slaughter-houses in 1920-21 is shown as Rs 4001, whereas in Col. 1 of the Comp. annual Acct. for 1921-22 (p. 33) it is shown as Rs 4013.

(iii) Col. 11 of Encl. III-C ~~is stated~~ shown as nil. This seems to have been filled in the figures in Col. 11 of Encl. III-D, as ~~inaccurate~~ income of the Correct figures will be the percentage of the increase in the strength in 1922-23 over that of the schools ~~as Compared with~~ the previous year, to the total strength in the previous year and they ~~will be~~ should be ~~5 & 24~~ for 1921-22 & 1922-23 resp. in Col 11 of Encl. III-C & 6·3 & 29·2 in Col. 11 of Encl. III-D

(iv) In Col 15 of Encl. VI-B the closing balance in 1921-22 is shown as Rs 177, whereas in Col 2 the opening balance in 1922-23 is

3

Remarks nil.

(i) In part B of Encl. No. 7 the Capital Expdr. on Services alone should be shown. The correct figures which shd be entered against in this part are Rs 2257, Rs 1128, Rs 2, Rs 1138, Rs 624, Rs 270 & Rs 354 respy. (vide Summary on pp. 2 & 3 of the Comp. annual Rect.)

2. The Chairman is requested to explain the discrepancies noticed in clauses (ii) & (iv) above & to make the necessary Corrections with reference to the other points.

Copies sent to Secy & Financial Adv. to the C. R. O. Ballary.

Local Self Government Department.

Madras.

Sir,

Plants

In reply to Government Memorandum No. 20767-1 L & M., dated 25-10-23, I have the honour to state as follows:-

Para. 1:- Noted.

Para ii. - (a) The gross receipts from Municipal markets in 1922-23 as shown in the comparative annual account was RS:2400/-. The figure has been corrected accordingly.

(b) The figure RS:1049/- is the audited figure and it will have to be adopted.

(c & d) The figures RS:100/- and RS:4001/- have been corrected into RS:120/- and RS:4003/-.

Para iii. - Noted.

Para IV. - The balance of RS:177/- shown in the statement which accompanied the Administration Report was altered into "nil" during the audit.

From (Name) Dr. K.T. Matthew, D.Hy., D.P.H.(Cantab.)

(Designation) Ag. Director of Public Health, Madras

To The Secretary to the Government of Madras,

Local Self-Government (Public Health) Department.

Sir,

(A)

Ref:--Para 7 of G.O.No.2431 L.& M., dated 30-10-23.

I have the honour to state that the Director, Ankylostomiasis Campaign, Madras reports that the Sub-Assistant Surgeon who was deputed to conduct the Anti-Hookworm Campaign in Bellary in 1922 was not able to do any investigation work as he fell ill and that he returned to Madras - within a week of his arrival there. The Director therefore proposes to start the investigation at Bellary at the end of this

of this month or in the beginning of April, 1924. After the investigation is completed, the Municipal Council will be advised on the measures to be adopted for controlling the disease in the Municipality.

I have the honour to be,

Sir,

Your most obedient servant,

D.Hy., D.P.H. (Cantab.)
Ag. Director of Public Health,
MADRAS.

G.O.2431 Dtd 30.10.23

Administration report - Bellary municipali

1922-23 - reviewed.

I. Communications.

About 7 furlongs of roads were opened in the year. The total expenditure on maintenance rose from Rs.4412 to Rs.6879 or Rs 156 per mile. This was 50.5% of the net toll revenue of Rs.13611 against 37.6% in 1921-22. Twenty five lights were replaced by 5 high power lights and consequently the lighting charges rose from Rs.5531 to Rs.7407. The amount appropriated to general revenues from the receipts under 'communications' was Rs.3,681.

II. Education.

2. The number of municipal elementary schools decreased by one. The strength in the municipal ~~boys' and girls'~~ schools rose from 600 to 744 and 185 to 229 respectively, ~~one municipal schools accounted for nearly 51% of the total number of children receiving elementary education within the municipality.~~ Attendance showed a sharp decline, ~~the percentage of average daily attendance to the total strength being~~ only 65.7 percent in boys' schools and 73.1 per cent in girls' schools as compared with 83.8% and 84.9% in 1921-22. ~~The standard of education attained is not high; only 8 boys' schools and 1 girls' school~~ teach up to or beyond the IV class. The lower classes continue to be congested;

No information has been furnished as to the condition of the roads in an omission which should be supplied.

have yet the age were not provided with class education for

Encl. to Circ. 3.10

Encl. to Circ. 3.

Only nine schools (Eight for boys and one for girls) - 2.8

as many as 75% of boys and 91% of girls were being in the two lowest classes. The total ordinary expenditure on elementary education amounted to Rs.11,202 (as against Rs.9322 in 1921-22) of which Rs.7,051 (or 62%) was met from municipal funds and Rs.4,336 (or 38%) from Government grants. Elementary education was made free in the municipality in the course of the year.

3. The municipal secondary school continued to be popular and accounted for 431 students or 57.8% out of a total of 746 students receiving secondary education within the municipplity. Of the 45 candidates who appeared for the S.S.L.C. examination, only 7 were declared eligible. This does not support the Inspecting Officer's remark that the results were good.

III. Public Health.

4. The number of patients treated in the municipal dispensary increased from 12699 to 13701. The D.M.& S.S.'s inspection notes are not at all complimentary and the defects pointed out therein should be remedied without delay.

5. The birth-rate rose from 31.7 to 35.6 per mille of the population. The Government note with displeasure that maternity work was very inadequate. The suggestion made by them in the review of the previous year's report that the council should employ more midwives and organise their work more efficiently has not been acted upon. The three qualified midwives together attended

Encl. IV. B. Col. 9.
ib Col. 11 & Col. 10

only 121 (against 178 in 1921-22) or 8.5% (against 14.9% in 1921-22) of the recorded number of births. The cutturn of the municipal midwife (was only) 55. ~~The Government are glad to note that 5~~ Five dhais reported to be stipended by the municipality are undergoing

Repeat para 30(iv) on pg 4 — training ~~in the class opened for them~~ and hope the council will utilise their services to the best advantage after they are trained. It is disappointing that the Health and Welfare Association has not done any propa-

ib para 30(v) — ganda work during the year.

6. The death-rate ~~showed a sharp~~ rose

Encl. IV. C. Col. 12 — from 20.4 to 28.8 per mille of the popula-

ib Col. 2 — tion. Cholera broke out in an epidemic form during the year under review and claimed 76 victims. The number of deaths from fevers also rose from

ib Col 5 — 81 to 169. There were, however, no cases

ib. Col 3 & 4 — of plague or small-pox. Vaccination declined, the number of successful cases totalling only 1697 or 42.6 per mille of population

Encl. IV. D. Col. 8 & 9 — against 1945 or 48.8 per mille in 1921-22.

ib. Col. 4 & 7 — Out of 401 cases of re-vaccination only 125 were successful. The municipality will do well to prescribe a minimum ~~number~~ of about 200 vaccinations to be performed every month by each of its vaccinators.

7. The Director of Public Health has been asked to advise the Council on the steps to be taken to control [illegible] diseases.

8. House conservancy deteriorated. Though the number of houses increased from

Encl. IV. E. Col. 9. — 9361 in 1921-22 to 9532 in 1922-23, the number of houses with latrines and the

ib. Cols. 6 & 11 — number conserved declined from 2586 and 2280

to 2479 and 2021 respectively. Private scavenging ~~more than paid its way~~ and brought in a ~~surplus~~ profit of Rs.1507 against a loss of Rs.1927 in the previous year. The council should take early steps to extend the service.

9. The Sanitary Engineer has been asked to report whether the cost of the Nagari water supply scheme (estimated at Rs.16.5 lakhs) cannot be reduced.

IV. Remunerative enterprises.

10. It is a matter for satisfaction that the income under this head has recovered from the decline in 1921-22 and that the entire surplus receipts have been ~~kept in a suspense balance~~ reserved for the development of ~~the remunerative~~ non-tax resources. The receipts under the various heads compare as follows with the previous two years:—

	1920-21.	1921-22.	1922-23.
Markets	1719 ~~1386~~ 1336	1336 ~~1386~~	2400 ~~2735~~
Cartstands	1633 ~~1731~~	1049 ~~1086~~	1762 ~~1736~~
Slaughter-houses	4003	2525	5152
Tree-planting	62	120	36
Land development	4120	4345	4666
	~~11,533~~ 11,607	~~9,301~~ 9,375	~~13,905~~ 14,086

It is hoped that the council will push on with the schemes for the construction of new markets. ~~and for the construction of a market by applying for a Government loan.~~ It is satisfactory that 6 out of the 12 town improvement schemes have been completed.

~~11. The Council's report with reference~~

~~tax~~

The Chairman's attention is invited to the Collr's remarks in para 2 of his endorsement & he is requested to expedite the report called for in para 139 Proc 1969 Dt 17-10-1922

Encl. II-D. Ch. 3 + 7

12-Oct-23 Encroachment cases were disposed of during the year. The remaining 43 shall be disposed of quickly.

V. Finance.

13 Collection, though an improvement on the previous year's record, is not yet satisfactory; arrears left uncollected aggregated Rs.9,800 and Rs.2,086 under the tax and non-tax items respectively which work up to 10.2% and 4.3% of the demand.

Encl. VII-A Cl. 16.

14 The Government are pleased to note that the council has made further efforts to improve its financial position. The net general revenue (Rs.63,113) was 50% higher than that of (Rs 42,273) the previous year, and the total expenditure on services also increased from Rs 40,676 to Rs.54,541. The year closed with a balance of Rs.7434.

The net result was a surplus of Rs 8572 on the year's working against Rs 1597 in 1921-22. A sum of Rs 1138 was spent on capital works from general funds.

Encl. I-C. Ch. 2 + 4 + 8

VI. General.

15 Ten elections were held during the year of which 7 were contested. 82.7% of the electorate polled. The

ccuncil got thrtugh its business in 21
meetings of which one ~~was~~ had to be adjourned for want
of qucrum. Attendance was ~~satisfactory~~ poor
(57.7% of the sanctioned strength against
64.3% in the previcus year). Eight Committees were at work during the year including a joint committee
The administration ~~was~~ on the
whole ~~satisfactory.~~ ~~successful and reflects credit~~
~~on the Council~~ and its Chairman.

INSTRUCTIONS FOR THE SECRETARIAT.

(*a*) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(*b*) Each letter, memorandum, or order or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(*b*1) For rules regarding printing of notes, see rule 315 of the office Manual.

(*c*) The number of copies and the details of distribution should be filled in by the Superintendent or Reference concerned.

(*d*) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for *one* week, and larger papers for *two* weeks only. *The type of notes and of all confidential papers is distributed immediately after striking.*

(*e*) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(*a*) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(*b*) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(*c*) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(*d*) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(*e*) The names of the Secretary and Members should be printed in full when they come on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.

[P.T.O.]
